SUMMARY

Final-year B.Tech CSE student with a strong foundation in full-stack development. Proficient in Python, JavaScript, SQL, MongoDB, FastAPI, React, REST APIs, and modern AI technologies, with solid grounding in Data Structures & Algorithms, OOP, DBMS, and Software Engineering. Experienced in building and deploying AI-powered, data-driven applications — developing backend services, integrating APIs, and working with structured and unstructured data. Solved 150+ DSA problems with strong analytical and debugging skills. Seeking a Software Engineering Intern role to contribute to real-world products while growing as an engineer

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), Python, Java, C
Frontend:	React.js, Next.js, HTML5, CSS3
Backend & Databases:	Node.js, Express.js, FastAPI, REST APIs, MongoDB, MySQL, Supabase
AI & Machine Learning:	RAG Pipelines, LangChain, AI , API's, LLM, Prompt Engineering, Context Engineering
Developer Tools:	Git, GitHub, Docker, VS Code, MCP, Cursor, Windsurf, GitHub Copilot, Claude Code
Core CS:	Data Structures & Algorithms, OOP, DBMS, Operating Systems, Software Engineering

EXPERIENCE

SDE Intern | Softnxt

Sep 2026 | Present

- Building frontend visualization features — an interactive, node-based graph view (similar to Obsidian's note-linking visualization) using HTML ,Go Fiber. Working on backend data handling: structuring, storing, and serving data that feeds the visualization layer.

Full Stack Developer Intern | Edunet Foundation

Apr 2023 – May 2023 | Remote

- Built 6+ RESTful API endpoints in Express.js connecting React frontend to MongoDB, enabling full CRUD operations delivered within a 2-month sprint.
- Developed 4 responsive UI pages using HTML, CSS, and JavaScript with mobile-first design across all components.

PROJECTS

TrustRAG, a full-stack Multi-Agent RAG platform

[GitHub](#) | [Live Demo](#)

React.js | FastAPI | Groq API (Llama 3.1) | LangChain | LLM/RAG | MongoDB

- Architected TrustRAG, a full-stack Multi-Agent RAG platform supporting PDF, DOCX, TXT, Markdown, and CSV documents; implemented semantic chunking, BGE embeddings, ChromaDB retrieval, and evidence-grounded question answering.
- Engineered a FastAPI multi-agent pipeline with Researcher, Fact-Checker, Trust Assessor, Critic, and Reasoner agents, integrating evidence validation, contradiction detection, trust assessment, consensus scoring, and confidence evaluation.

A RevenueRescue AI — Payment Recovery Platform

[GitHub](#) | [Live Demo](#)

Next.js | Node.js | OpenAI API | Supabase

- Engineered RevenueRescue AI, an autonomous payment recovery platform that diagnoses transaction failures, predicts recovery probability using Machine Learning, and generates optimized recovery strategies through an AI agent.
- Implemented a policy-gated recovery pipeline — Detect → Diagnose → Predict → Decide → Gate → Recover → Verify → Measure → Audit — with deterministic safety controls, Razorpay Test Checkout verification, and recovery analytics for merchants.

MambaTab — Credit Card Fraud Detection

[GitHub](#)

Python | TensorFlow | MambaTab | scikit-learn | SMOTE

- Implemented MambaTab architecture for sequential tabular fraud classification on 284k-transaction dataset; applied SMOTE for 99:1 class imbalance — achieved 94%+ F1-Score and 0.97 ROC-AUC, outperforming XGBoost baseline.

CERTIFICATIONS & ACHIEVEMENTS

- Smart Coder (Bronze)** — Smart Interviews | Global Rank: 9,503 / 53,921 | Solved 150+ DSA Problems (2026)
- Claude 101** — Certificate of Completion, Anthropic
- Vibe Coding Fundamentals** — Simplilearn SkillUp
- Welcome to ServiceNow** — ServiceNow Micro-Certification
- Open Source & GitHub** — 42+ Public Repositories | 114+ Followers | Pull Shark ×2 | Contributor to Microsoft VibeVoice

EDUCATION

B.Tech — Computer Science & Engineering

Aug 2024 – Present (2027)

Vardhaman College of Engineering (VCE), Hyderabad | JNTUH

Relevant: Data Structures & Algorithms, OS, DBMS, Machine Learning, Cloud Computing, Software Engineering

Diploma — Computer Science & Engineering

2021 – 2024

Mahaveer Institute of Science & Technology (MIST), Hyderabad

Relevant: Programming Fundamentals, Web Technologies, Database Systems
